

Objective

Outdoor lamps are an essential component of exterior lighting and design. Very useful for illuminating the periphery of a house or a balcony, exterior wall lights have various specifications. Firstly, an outdoor lamp must have a protection rating (IP) that allows it to be placed outside, so to be exposed to rain and bad weather, without reporting any damage and without creating any danger for people. The higher the protection rating, the more resistant it is to water and, in general, humidity. In our item Ycar we offer a tested IP 66.

Obiettivo

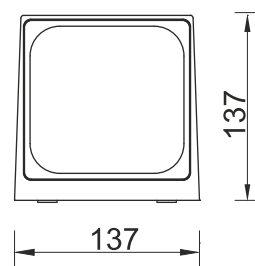

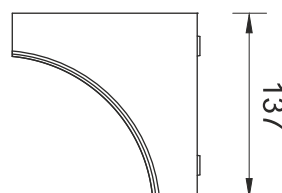

La lampade da esterno sono componenti essenziali per l'illuminazione degli spazi esterni ed il loro design. Molto utili per illuminare la periferia della casa o un terrazzino, le lampade da parete hanno varie specifiche. Prima di tutto, una lampada da esterno deve assolutamente avere un indice di protezione (IP) che le permetta di essere posizionata all'aperto, e quindi esposta alla pioggia ed alle intemperie, senza riportare alcun danno e senza creare alcun pericolo per le persone. Più alto è l'indice di protezione, più la lampada è resistente all'acqua e, più in generale, all'umidità. Con il nostro articolo Ycar, offriamo un valore di IP 66 testato.

Description

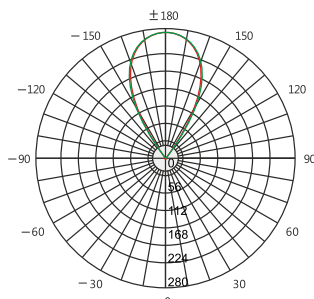

- Housing** - Made of die cast aluminum powder coated with choice of RAL color
- Diffuser** - Tempered glass diffuser specially for LED
- Reflector** - Anodized aluminum reflector
- LED** - reducing energy consumption with L80/B10/F10 50,000 hrs lifetime.
- Standards** - manufactured in accordance with tested as per PTPS IEC 62722
