

Objective

A landscape spillo lighting palm tree ring is a light fixture support band that is designed to attach to a tall tree by encircling the trunk. It usually accommodates 3 - 6 lights that can be pointed in varying degrees. Tree rings are a must-have for landscape lighting designers. Palm tree lighting is an art and most of the time; the beauty of taller trees is lost at night. By using the Lightcraft palm tree ring you are able to capture the beauty of the palm fronds and canopies at night. The tree ring fixtures will allow beautiful ambient lighting - directionally up into the fronds of down lighting on the ground. Each light can be arranged in a full 360 degrees of rotation, so some can point up, some can point down. For moonlighting effect, point the lights down. For trunks and branches, point the lights up. Lightcraft offers a wide selection of landscape fixtures which are sold separately from the tree ring.

Obiettivo

Un anello di palma con illuminazione a spillo paesaggistico è una fascia di supporto per lampadari progettata per essere attaccata a un albero circondando il tronco. Di solito ospita 3 - 6 luci che possono essere puntate in vari gradi. Gli anelli degli alberi sono un must per i progettisti di illuminazione del paesaggio. L'illuminazione delle palme è un'arte e la maggior parte delle volte; la bellezza degli alberi più alti si perde di notte. Usando l'anello di palma Lightcraft puoi catturare la bellezza delle fronde e dei baldacchini delle palme di notte. Gli apparecchi ad anello degli alberi consentiranno una bella illuminazione ambientale - direzionale verso l'alto nelle fronde dell'illuminazione verso il basso a terra. Ogni luce può essere disposta in una rotazione completa di 360 gradi, quindi alcune possono puntare verso l'alto, altre verso il basso. Per un effetto chiaro di luna, punta le luci verso il basso. Per tronchi e rami, puntare le luci verso l'alto. Lightcraft offre un'ampia selezione di apparecchi paesaggistici venduti separatamente dall'anello dell'albero.

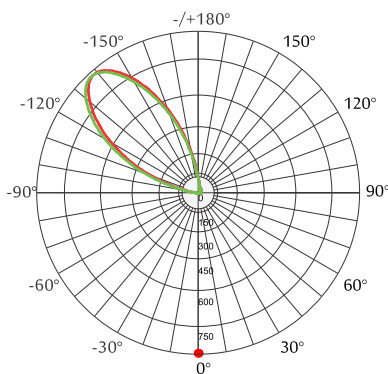

Description

- Housing** - Die cast aluminium powder coated with choice of RAL colors
- Ring** - Made of 316 Stainless steel curved ring with SS screws and junction box.
- Diffuser** - Tempered clear glass.
- LED** - reducing energy consumption with L80/B10/F10 50,000 hrs lifetime.
- Standards** - manufactured in accordance with tested as per PTPS IEC 62722

Installation Manual

<p>Based on the size of your tree find the two corresponding pop outs on the 2 halves of the ring</p>	<p>Once you choose your preferred diameter cut out the correct pop outs</p>
	
<p>Align the cut outs together with the cut outs on the inside of the ring. This should be done around the tree.</p>	<p>Take 2 of the 4 Brass Nipples and connect both sides of the halves</p>
	
<p>Use the lag bolts to secure to the trunk of the tree. Make sure that the ring is tightly secured to the tree. This can be done with or without the springs.</p>	<p>Once assembly is completed the tree ring should look like this, around a tree.</p>
